

Z E N

BE ONE WITH YOUR BUSINESS

The new modular software suite designed
to give you total control of your business.

GUNNEBO[®]

Z E N

Even in the last place on earth, you can feel the connection.

Running a business means being always connected, wherever you are. Your business is part of you at an essential level and you must be there for everything to work properly.

Because only by being fully connected can you really disconnect.
Only when you have everything under control can you feel true peace of mind.

ZEN connects you with your business, as if you were one, allowing you to take the management of your business to another level, giving you access to every operation and every task.

Unify control of all your devices from a single platform which adapts in infinite ways thanks to its modular technology, optimising your resources and allowing multiple simultaneous connections.

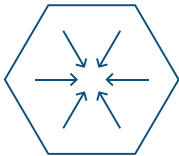

The possibilities are limitless.

**Unleash the power of ZEN.
Be one with your business.**

HYPER CONNEC TIVITY

Connect, secure and efficient.

ZEN connects with several cloud environments, including third-party systems, in real time without compromising on security through encrypted secure communications with the latest security standards and protocols.

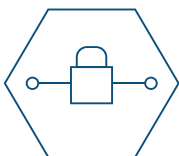

Efficient decision making

Manage all the information related to your business from a single platform and optimize your routines and reduce cost on your service operations.

Simultaneous multiple connections

Connect in real time with your bank, CIT, clients and all the software and devices of your business environment.

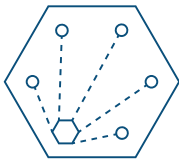

Secure transactions & operations

Combined with State-of-the-art security in every transaction, even digital cash.

OMNI PRESENT ACCESS

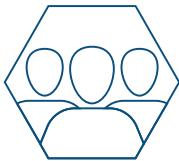

Flexible and intelligent control of your devices.

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis.

Remote management

Manage upgrades and execute commands for any component of your cash management devices from anywhere.

Global user management

Remotely manage all device users and multiple stores at the same time from a geolocated map.

AI predictive maintenance

Increase productivity by accessing real-time data to allow you to make proactive decisions on the health of your devices.

ENDLESS ADAPTA BILITY

Versatile configuration adjusting to different conditions.

Designed to be flexible and modular, ZEN adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Modular technology

Tailored feature packages: add or remove functionalities based on your needs.

Flexible workflow

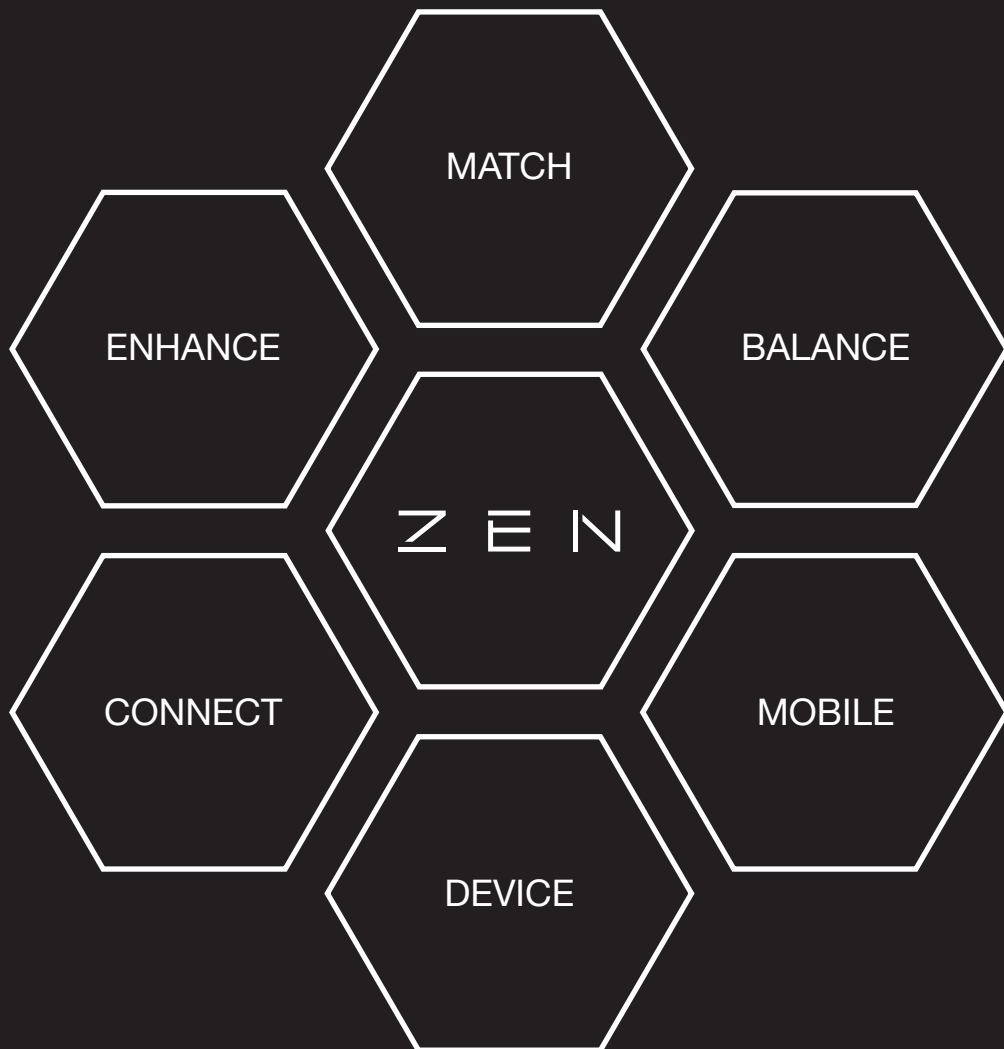

Allows for multiple business models and licensing options.

Advanced reporting

Track everything with our live tailored financial reports.

Modular software suite

BALANCE

Business Reporting and Analytics.

- Real-time monitoring of cash levels and reports.
- Reconciliation of sales and collections in the store.
- Store routine optimisation for refilling and end of day.

CONNECT

Data Sharing and Connectivity.

- Export data in real time to third-party systems.
- Customisable data export formats.
- Complete set of API for direct exportation.

DEVICE

Multi-Device Connectivity.

- Compatible with full Gunnebo range: deposit, recycling, SafePay and self-service.
- Option to connect to third-party products on demand.
- Secure and encrypted communication between devices.

ENHANCE

Service Monitoring and Optimisation.

- Real-time status monitoring of devices.
- Full remote access including remote user management and upgrades.
- Proactive and predictive maintenance of devices.

MATCH

End-to-End Cash Reconciliation.

- Automatic reconciliation of cash deposits, real-time crediting and cash centre counting.
- Management of exceptions with pre-defined actions.
- Automatic anti-money laundering verification and over-the-limit deposits.

MOBILE

In-Store Optimisation.

- Automated routines in the store via mobile for refilling and end of day.
- Real time status information while doing other tasks in the store.
- Secure generation of one-time codes for collection.

Z E N

ZEN adapts and connects to all your devices, applications and external software, creating a perfect and secure ecosystem, where you can manage your entire business, from a single platform.

A scenic view of a mountain range with snow-capped peaks and a calm lake in the foreground reflecting the mountains. The sky is a soft, pale blue, and the water is still, creating a clear reflection of the mountains and sky.

Giving “Smart Cash Management”
a whole new meaning

ZEN
